2010 JEEP WRANGLER; THE BENCHMARK OFF-ROAD VEHICLE

With more than 68 years of legendary off-road capability, the 2010 Jeep Wrangler doesn't sacrifice anything inside the cabin, offering safety and convenience features, interior space, versatility and comfort.

Whether choosing a Wrangler Sport, Sahara or Rubicon® model, 2010 Jeep Wrangler customers will experience best-in-class off-road capability in a true open-air sport-utility vehicle.

The 2010 Jeep Wrangler adds even more refinement with a new and improved Sunrider® soft-top system, making it even easier to remove the top for that open-air experience on- or off-road.

The Sunrider soft top is redesigned with a new cable-top system that allows customers to easily open and close the top within minutes. The improved soft top now features a simplified removal system, eliminating the need to un-tuck and tuck the side rails when opening and closing the top.

All 2010 Jeep Wrangler models include a fuel-saver indicator. The fuel-saver indicator provides drivers with continuous feedback on fuel consumption. The fuel-saver indicator will display when driving in a fuel-efficient manner.

Other standard features include compass and outside temperature display, fog lamps, tow hooks and larger sliding sun visors with mirrors.

Jeep Sahara and Rubicon models now feature new optional two-tone leather seating. And the Wrangler Sport model now features a new full-length floor console. In addition, cloth seats replace standard vinyl seats.

2010 Jeep Wrangler models feature a 3.8-liter V-6 engine which generates 202 horsepower (151 kW) and 237 lb.-ft. (321 N•m) of torque, backed by a standard six-speed manual gearbox or an available four-speed automatic transmission.

2010 Jeep Wrangler Sport and Sahara models are equipped with the Command-Trac® NV241 part-time, two-speed transfer case with a 2.72:1 low-range gear ratio. An available Trac-Lok® limited-slip rear differential provides extra torque and grip during slippery, low-traction situations, such as driving over sand, gravel, snow or ice.

The 2010 Jeep Wrangler Rubicon model is equipped with an Off-Road Rock-Trac® NV241 two-speed transfer case with a 4.0:1 low-range gear ratio, as well as electric front- and rear-axle lockers, an electronic sway-bar disconnect and 32-inch off-road tires.
