## **2021 Ram Commercial ProMaster Fact Sheet**

August 31, 2020, Auburn Hills, Mich. - The ProMaster is Ram Commercial's entry for the Class 2 full-size van segment. The 2021 Ram ProMaster full-size van benefits from an exclusive front-wheel-drive (FWD) system, reducing weight and complexity by locating all components beneath the cab. This keeps the cargo-load floor height and step-in height very low, which is a great ergonomic feature for the person getting in and out of the van all day. It also helps in low-traction surfaces, like snow, since there is always weight on the front wheels to provide traction. The result is a purpose-built, highly customizable van designed to exceed the demands of commercial customers and upfitters.

### **New for 2021:**

- Crosswind Assist now standard equipment and helps the driver stay on course while driving in windy conditions
- A range of new safety options are available on 2021 Ram ProMaster, including Blind-spot Monitoring with Rear Cross Path detection, Forward Collision Warning with Emergency Brake Assist and ambient/courtesy lights
- Class-exclusive digital rearview mirror is available to replace the traditional rearview mirror with a 9.2-inch wide LCD monitor

### **Highlights**

ProMaster best-in-class features:

- Standard V-6 horsepower
- Turning diameter
- Standard interior cargo height
- Load-floor height
- Cargo width between wheel wells
- Maximum cargo width

Payload:

- 2021 Ram ProMaster features the 3.6-liter Pentastar V-6 engine paired with a proven six-speed automatic transmission
- Class-exclusive FWD system

The Ram design team started with a functional exterior and interior, adding distinct Ram styling while adapting the full-size van for North America.
